

PRECIOSA

## BRILLIANT

RESIDENTIAL  
LIGHTING  
FIXTURES

NEW 2005/I.

*Dear Friends,*

*Our effort to permanently improve the design of our lighting fixtures meeting your requirements results in new models we put on the market. Our new products catalog you have just opened speaks volumes for that.*

*On the following pages, you will find a collection of new products from the Brilliant line. The characteristic feature of these fixtures is their crystal glitter caused by a wide range of PRECIOSA machine cut chandelier trimmings of the highest quality.*

*Creating this collection, we pursued three ways of designing:*

*Firstly, we widened our range of products by adding new lighting fixtures whose design is based on favorite types. You will find them, for instance, on pages 4, 6, 7, 8, or 13. Secondly, we developed such new details that have not been used in our lighting fixtures so far. For these fixtures, see page 9 for instance. A new attractive detail you can see in these fixtures is an original opened "fan" with crystal chandelier trimmings woven around it.*

*Thirdly, we used alternative light sources. A new type of lighting fixture lit up by halogen bulbs is depicted on page 14.*

*What all these new lighting fixtures have in common is the fact that they follow current trends in interior and lighting designs. Thus, they match both classical and modern interiors.*

*On the pages that follow, you can convince yourselves of the meticulous work we put into designing new lighting fixtures. We believe that our new catalog has inspired you to select the right fixture that will become an elegant part and adornment of your interior.*

*Best Regards,*

*Radan Haiblik  
VP Sales and Marketing  
Preciosa - Lustry, a.s.*
