

# The Art of Light

## 2005-2006

RESIDENTIAL  
LIGHTING  
FIXTURES

PRECIOSA

**Dear customers,**

*Light is the basic condition for life enabling us to receive most information about our surroundings.*

*In interiors, light has forming power integrating all interior's elements into one visual whole.*

*The form of the contemporary design of lighting fixtures is determined by a number of factors, such as the development of light sources or trends in architecture.*

*The current trend in interior lighting prefers combined light using both modern technical lighting and decorative lighting in the same room. Thanks to indirect light, the technical lighting lights up the interior softly, without shadows and contrast. Decorative lighting then adds the cozy atmosphere to the room, thus functioning as a strong visual element that completes and respects the style of the room's furnishings.*

*Our new catalogue presents contemporary decorative lighting fixtures that can be an adequate element of modern architecture. The design by our company's artists enhances the effect of the combination of traditional furnace techniques and modern sources of light.*

*The lighting fixtures we produce are not only earmarked for the lighting of apartment interiors, but can also serve as the inspiration to create special custom-made lighting fixtures. Our lighting projects are a good example of how a residential lighting fixture of a distinctive visual quality can be transformed into an atypical fixture, which, owing to its dimensions and character, will put the finishing touches to our customers' representative rooms.*

*Open our new catalogue of contemporary lighting fixtures and let them inspire you with the beauty of glass and perfect workmanship, with the play of colors and contemporary design. We believe you will select "your" lighting fixture that will become an inseparable part of your interior.*

## ■ Falcon

Individual structural elements of this lighting fixture make your imagination fly and conjure the image of a majestic bird of prey, such as a falcon with its wings and talons. This is a lighting fixture that floats in the space, thanks to its airy and fragile structure.

## ■ Messenger

The story of this lighting fixture unfolded when the "They are just landing..." lighting project was designed for the arrivals hall of the Singapore airport. The fixture conjures up an image of a messenger descending from the outer space to the Earth. The main feature of its elegant design is austere but distinct glass and metal parts.

## ■ Bienvenuto

The structure of this lighting fixture opens its arms to welcome anybody entering the room. A friendly gesture lit up with thousands of reflections and rays of the crystal. The modern structure, unusually fragile, makes the friendly gesture even more impressive.

## ■ Solo

Uniqueness. Exclusiveness. Non-exchangeability. These words will surely be coming to mind when looking at Solo fixtures. The distinctiveness of the structure and the combination of metal and glass will take us into the world of fairies and fantasy. The world of extraordinary company.

## ■ Genesis

The story of birth has been repeated for ages in nature and in the community of humans; yet it remains fascinating. The Genesis fixtures resemble a tangle of freshly born plants nurtured with sunbeams and making their way upwards to the Sun. This classical composition, made fluttering with freely shaped elements, makes the impression of being in harmony with nature.

## ■ Oasis

A life-giving bowl of water, with the stems of multi-colored plants sprouting out of it. The symbol of an oasis is represented here.

## ■ Fantasia

Color accessories represent a fantasy variation of a crystal concert. Moreover, the customer is given a unique opportunity to become a co-creator and to contribute with his or her imaginative powers to the finishing touches of the fixture design.

## ■ Panthera

Its black arms, dynamic tension and the elegance of the design result from the combination of structural components. In any interior, this fixture creates an image of virgin nature and a noble element untrammelled by conventions.

## ■ Polare

The feeling of magical northern lights and the combination of snow and ice are the main characteristics of the Kingdom of the Winter fixture.

## ■ Amoretto

A lighting fixture for those in love. The purity of the shape, and ideas of the creator. A decoration of any home and interior dominated with friendship and love.

## ■ Penelope

Not even the twenty-year wait strangled love between Penelope and Odysseus. However, Penelope had to overcome all the nostalgia and sadness of the separation from her beloved man. The black tone of this lighting fixture symbolizes the long nights she spent in isolation before meeting the king of Ithaca again, while its upright contours represent the firmness of this mythical relationship.

## ■ Meridian

A meridian crossing sky-blue seas and snow-white mountain peaks. That's what the meridian lighting fixture is like. A shape-perfect modern design of the supreme category.

## ■ Argonaut

Iason and his shipmates on the Argos, those who participated in an expedition to seek the Golden Fleece to Colchis. This story of a famous quest that attained its goal became a true gem of Greek mythology and entered modern history as well. Upon their return home, the heroes of the quest promised to one another that they would meet every four years to test their strength and prowess in a mutual competition. That was the origin of the later Olympic games. The Argonaut Family stands out with robust elegance and strength. Its color is reminiscent of the color of the southern sea in which the Argonauts were sailing.

## ■ Luciano

A name that implies the gift of light (la luce - light in Italian) was given to a fixture of classical balance with contemporary decorative elements that yet multiply the lighting effect. The name also carries musical resonance. It reminds us of the outstanding tenor Luciano Pavarotti and is getting on well with the most sophisticated interiors.

## ■ Orbis

The Earth globe hanging in the space of an interior. The globe of the world, Orbis Terrarum with the architecture of mountains, mountain ranges, and high-rise buildings. The lighting fixtures induce the illusion of a lit-through planet with a wide range of appealing color effects.

## ■ Belcanto

The name of a vocal style, beautiful, ornamental and extending like a dome. Here, it is a name of a lighting fixture featuring a combination of harmonic classical charm and indiscriminate ornamental style of signing coloratura.

## ■ Lolita

The combination of crystal-clean innocence and carmine, passionate temptation has a female name, Lolita. The structure of the fixture arms resembles arms raised sideways in a dynamic dancing gesture.

## ■ Carmen

A lighting fixture inspired by the radiant atmosphere of Bizet's opera. Like music, this Carmen of glass beams expresses passion and tenderness. Its effect is very decorative and it features originality in harmonizing the components and simple grace.

## ■ Dulcinea

The passion with which Don Quixote fought windmills for Dulcinea is expressed in these fixtures of unusual style, purity and beauty.

## ■ Lacrima

A tear, a dew drop hanging on the rain veil so that it can create a rainbow so typical for Bohemian crystal. Water and Fire were the Fatal Sisters standing on duty, when one of the noblest materials the humans came to know in their history, was originated.

## ■ Cinderella

A veil of crystal drops appears as if enveloping the secret of a girl who changes from her modest and simple grace into an admired and beloved princess. Cinderella is a fairy tale of light, rainbow transformations and secrets of fine crystal glass.

This lighting fixture is an example of our endeavors to enable the customer to select a color combination corresponding to their ideas of supplementing any interior with an appropriate fixture. The look of the fixture can easily be changed by using any of the three color variants of glass hooks and bobeches. This double-page spread shows a few examples of possible color combinations.

The lighting fixtures you can see on the following pages are specific to the Preciosa - Lustry company's supply. This most extensive collection of lighting fixtures shows how we deal with our customers' ideas and requirements.

The collection, comprising three color variants of lighting fixtures designed for the Euroluce Fair, features three new original elements. The leitmotif of the collection is a dominant glass ball with glass "thorns" stuck onto its surface in hot condition.

Widening arms of ceiling fixtures form

a complementary part of the design, with colored glass applied in an original way.

After the collection had been put on the market, our

customers required not only smaller fixtures, but also additional color variants. The

original design based on amber and cobalt glass combined with crystal was therefore enriched with an extra array of colors, as for instance carmine and green.

A new type of lighting fixture, a colored pendant, completes the entire collection. A candy bowl

accompanying, as a tasteful gift, the purchase of any ceiling lighting fixture, can serve as a decorative touch accentuating the ambience of the customer's home.

## THE EXAMPLE OF NUMBERING

**CD**   **1090** / **00** / **005**

①   ②   ③   ④   ⑤

### ① Sort

- A - Arm Type Chandeliers
- W - Wall Brackets
- T - Table Lamps
- C - Ceiling Chandeliers
- B - Basket Type Chandeliers
- P - Pendant Type Chandeliers
- F - Floor Lamps

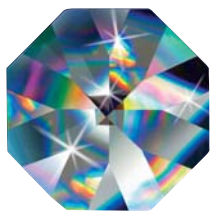

### ② Category

- S - Crystal Symphony
- C - Bohemian Classic
- E - Enamel Romance
- M - Maria Theresa
- L - Light Elegance
- R - Royal Heritage
- B - Brilliant
- D - Contemporary Lighting

### ③ Type number

### ④ Variant

### ⑤ Number of sources of light

Premium

### Premium

A sumptuous type of chandelier trimmings. Fire of the rainbow spectrum, brilliance, limpidity, glitter and perfect scattering and dispersion of light - these are their main features resulting from precise cutting using electronically controlled machines, but also from high quality crystal containing more than 30% of lead. Traditional mastery and the revealed mystery of the glass substance blend together with modern technologies and first-rate design in each of these unique pieces. Chandeliers dressed with these trimmings of exceptional beauty will lend an air of grandeur to the ambience even of the most prestigious interiors.
