The Art of Light

RESIDENTIAL
LIGHTING
FIXTURES

NEW 2006/I.

PRECIOSA

Dear Friends,

Let us offer you our new range of lighting fixtures that will delight all those who prefer an interesting and timeless design.

This collection was inspired by the lighting projects we have successfully carried out for special interiors, such as public buildings or hotels. Our artists have adapted their exceptional designs to commercial application, bringing out the unique properties of glass combined with modern light sources.

The major feature of the Gerda, Kay, Lampion, Spring and Fairy Tale fixtures is the harmony of glass and light evoking dim memories of the past.

The designs of the Cocktail, Mikado, Octopus and Medusa lighting fixtures are based on simple glass rods ingeniously formed and linked together.

The Metamorphoses lighting fixtures form a special group of novelties. The name itself testifies to the designer's intention to create timeless designs of fixtures that will not be affected by changing trends in architectural design. They can be used in various ways and so they present a challenge to interior designers and architects. It is also possible to adapt their dimensions to any lighting project.

We do hope the following pages will convince you of our designers' inventiveness and creative abilities brilliantly transformed by the deft hands of our master glassmakers into the fanciful shapes of genuine glass works of art. We shall be pleased to hear that the lighting fixtures included in this catalog have captured your interest and inspired you.

Jaroslav Demel

Vice-president of Sales

■ Gerda

The varied assemblage of colors symbolizes human longing for beauty and affection. In Hans Christian Andersen's fairy tale, little Gerda's love frees Kay from the Snow Queen's power. The light's energy enhanced by colored glass is as strong as Gerda's belief in life.

■ Kay

This lighting fixture's perfection of lines and color evoke the charm of snowflakes that enchants Kay's heart in Hans Christian Andersen's fairy tale 'The Snow Queen'. However, light reveals love and life concealed under the glittering beauty of snow.

■ Lampion

Lampion is the Czech word for a Chinese lantern. Creating these lighting fixtures, simple in design, our artists were inspired by the shapes of Chinese lanterns. Light, penetrating through colored, mouth-blown glass, brings joy and a positive atmosphere into any interior.

■ Mikado

In creating the design of this lighting fixture, our artists were inspired by the 'pick-up sticks' game called Mikado. The outstanding feature of the MIKADO lighting fixture is the purity of shapes and its structural austerity.

■ Cocktail

The light closed in this fixture creates a glittering cocktail, mixing glass purity and light. The fixture's individual elements form a visually organic whole leaving a pleasant and refreshing impression.

■ Octopus

The octopus is a highly intelligent animal inhabiting the depths of the oceans. Its body shape was the inspiration for the OCTOPUS lighting fixture, whose seeming motion is caused by the reflections of light.

■ Medusa

The original shape of this lighting fixture suggests the head of the mythological character Medusa. The fixture's dynamic lines symbolize never-ending changes in the course of life, enhanced by energy received from light.

■ Metamorphoses

The design of these METAMORPHOSES lighting fixtures is a visual expression of constant changes and evolution. Their common feature is pure, natural lines and carefully balanced dynamics. The harmonious alternation of light and shadows changes the overall look of the fixture.

■ Spring

Like water springing from the earth, bubbling and slowly overflowing its source, the light from our SPRING lighting fixture penetrates the space through glass bubbles, flooding the indoor space. Light, as well as water, is the source of life energy hidden in the delicate shapes of the fixture.

■ Fairy Tale

Light harnessed by amber flowers of mouth-blown glass creates a fairy-tale garden. The harmony of glass flowers takes us to the realm of fantasy and romantic stories.

■ Vertigo

A pleasurable feeling of dizziness overcomes us at the sight of this lighting fixture. When lit up by a halogen spotlight, the fragile crystal slivers seem as if they were fluttering softly onto the ground like feathers. Fluidity and eternal motion inspired the designer of this fixture.

■ Dream

Dreams take us from reality into a dreamland of our desires and ambitions. The floral design of these lighting fixtures is based on machine-cut crystal chandelier trimmings arranged into flowers vacuum-coated with tender pinks, greens and blues.
